*Mr Ball*

The Commissioner of Fisheries,  
Washington, D. C.

In response to your wire of April 3 please be advised that the report covering operations of B. Bortz was mailed two days ago.

Information from brokers regarding the pack of the Alaska Sea Food Products Company is that approximately fifty full barrels and twenty-five halves were packed during 1923. While your inquiry is for the Alaska Sea Food Company we are told that their report was sent in last fall and we surmise that it is the above company about which you are concerned.

Mr. Ashton Thomas is no longer in business.
